Comes v. Microsoft

Microsoft

December 4, 1987

Mr. Robert Carr
GO Corporation
1055 Lombard Street
San Francisco, CA 94104

Dear Bob:

I am sending you a copy of PC Excel. It is significantly enhanced over the Mac version and I hope you get a chance to use it. I would value your feedback.

It is too bad that you never got a chance to make Framework into the mainstream product it deserved to be. In the objects we are building for the object oriented versions of our languages we will have a concept very similar to your frame.

I had hoped it would work out for you to join Microsoft, and create a California development center for us. I think you are very talented and committed to doing great software, and I would have enjoyed working directly with you. Maybe next time.

In any case I am sure GO will be an exciting place. If there is anything Microsoft can do to support your efforts as an ISV, please let me know.

I hope we get a chance to exchange ideas at one of the upcoming industry get togethers.

Best regards,

Bill Gates
